FROM THE GRAYLING CAMP

NORWOOD MEMBER OF CO. "H" THIRTY THIRD INFANTRY M. N. G. SENDS INTERESTING LETTER

Camp Perry, July 11th, To CAPT. W. A. SMITH, Editor "Charlevoix Sentinel."

The Thirty-third regiment has left leaving this morning, every man happy because the time had come to leave the front.

The men in the front and rear are growing weary of waiting, every man anxious to leave the front as soon as possible. The men are so tired and weary of waiting that the smallest rumor of anything touches them off. A few nights ago a cry went up that the 32nd regiment was coming down and clearing up the front, instantly every man perked off his shirt in order to be distinguished from his comrades, and with a shout, became a throng of men eager for excitement, but with an order from the 32nd every man returned to his tent and turned in for the night.

Several reports have went out that the men in the camp have not received proper food, that they are overworked and that they do not get enough sleep. The reports, every time, come from men who either have been discharged from the service on account of being physically unfit, or from men who wish to get out, natural born kickers, men who do not wish to play the game, now that it means business.

The food is first class, properly cooked by first class cooks, and every man receives his share if he has enough energy to come to the mess tent.

Some reports have spread far and near that the men of the camp are overworked and do not receive enough sleep by having to show you the table of all the day's movements, anyone can judge for himself whether a man is overworked or not. This table of drills etc is carefully followed to the minute by the commanding officers.

ANOTHER SEED WAREHOUSE

A recent interview with Manager Brown, of the Chatterton Co., discloses the fact that this prominent seed concern, which has for two years occupied the Perry warehouse, will soon erect a warehouse of its own on a site which will be furnished by the city near the river front.

The effect that it will be nearly if not quite as large as the Perry building, and will be of two stories and basement.

Although Mr. E. L. Coulter, who was here last week, is reticent concerning the intentions of the Perry Co., it is pretty well understood that this concern contemplates a resumption of operations here along some line of seed growth.

The outgrowth seed experiment is said to promise satisfactory results, and indications are that this crop will be given considerable attention.

THE PAVING

At three o'clock Friday afternoon the re-paving of Bridge street was completed and opened up to traffic. The work has been thoroughly done and is generally approved by those who have represented the city.

The street plant was immediately moved to State street, and at this writing, Wednesday noon, that splendid "revue center" is fully half paved.

Bids for the South Bridge street job will be opened this week and work will soon be under way there.

MOVEMENT STARTED

PRELIMINARY MEETING HELD LOOKING TOWARD ESTABLISHING HOSPITAL HERE

In the brief of two years of speculative talk on the subject, a movement is now on to build a hospital in Charlevoix. For the purpose of crystallizing the proposition into tangible shape a meeting of several leading citizens was held one evening last week at the home of Harry L. Johnson, on Park avenue, and it may be said that the seed was sown that bids fair to yield fruit.

It is argued that one of the chief requisites of a well developed and permanently established resort town is a hospital, and the argument is not without logic.

It is argued that Charlevoix and Charlevoix county are regular contributors, directly and indirectly, toward the support of hospitals in neighboring towns.

The demand comes largely from wealthy resort people who are anxious to assist in the enterprise. It is a fact that the Charlevoix summer resort colony endorses more millaires than all the other Northern Michigan resorts combined. One of those who are zealous in promoting the enterprise is Dr. Greenfelder, the distinguished Chicago surgeon, whose summer home is on Park avenue.

But the bare proposition of the building and equipping a hospital is not the only phase of the question to be considered. This part of it is practicable. The question of maintenance looms large. It is not an expense that can be met with taxation, as the Carnegie library is supported in the annual school budget. It must be met by voluntary contributions and earnings.

It is well to consider this side of the question. But we are ready to yield to the sponsors of these more familiar matters of this kind than ourselves. It is a proposition of big proportions but is pregnant with great benefits, and a most splendid way of demonstrating the vitality and public spirit of Charlevoix.

A POLITICAL REVIEW

It is not the policy of this paper to tear up the earth in the cause of any primary candidate for nomination, especially in local politics.

But in the educational circles and do not deny partially toward the cause of Mr. Pickens. We believe him to be logically the proper man to head the State ticket.

Coming down closer to the political home circle, we believe Senator Morford has made good, and that he is entitled to a second term in accordance with an established precedent. However, he has a strong opponent in Representative Hinkley, of Petoskey.

The representative contest is a triangular affair, with Mr. Abbott, of Boyne City, J. E. Chew, of East Jordan, and J. M. Feltz, of Charlevoix, as candidates.

There is one place on the ticket that is practically settled now—that of Judge of Probate. Mr. Cornell has made an exceptionally good official, and there is no opposition to him.

The same may be said of Sheriff Chase Newell. In efficiency, outwearing all competitors, Mr. Newell has made good to the limit. We have heard of no opposition to him.

Another first term official who richly deserves reelection is prosecuting attorney Lewis. Perhaps no county office is more conspicuously a feast of the carroll as that of prosecutor. We believe Mr. Lewis has wisely and unpartially discriminated in his work, affording very little just cause for criticism.

We hear of no opposition to county treasurer Weaver, another official whose one term tenure is generally approved, and he has no opposition.

County clerk "Blick" Lewis and register of deeds Emory both very efficient and faithful public servants, have opposition but both are calm and confident.

THE PIKE TOUR

The West Michigan pike tour, from Chicago to the Straits, is on the road. The automobile aggregation, numbering a million or more cars, is due at Charlevoix today (Thursday) at 10:30 a. m. The procession will move north at 11:30 a. m.

The usual guard band will be extended to the tourists, and the usual talkfest about good roads and things will occupy the half hour. Many distinguished gentlemen are expected to accompany the outfit.

SHOULD SLOAN'S LINIMENT GO ALONG?

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in shape for the morning. You should also use it for every ache and pain, toothache, stiff neck, backache, sprains, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment." Write one vacation letter to Sloan's Liniment Co. and we will send you a bottle free. But a bottle in your bag, be prepared and have no mishaps.

ALLIES POUND GERMAN SECOND LINE DEFENSES

French War Office Announces Capture of Section of Second Line.

IMPORTANT TOWNS TAKEN

German Line Between Etrees and Asselviere Defended by 21 Battalion, Crumpled Beneath Blows of French and English.

—Having smashed the first line positions of the Germans in the sector of the Somme, the French now pounding away at the second line.

The French war office in a communique issued today announced that three miles of the German second line between Merencourt wood and Asselviere south of the Somme, have been captured. The village of Harcourt has been captured by storm in spite of the furious resistance of the Germans.

Between Etrees and Asselviere the German line, which was defended by 21 battalions of troops, has crumpled beneath the blows of the allies.

In the hills of the infantry fighting the big guns of the French and British are continuously battering the German positions.

For a week or more the shelling has continued day and night.

German Line Is Bent.

Late dispatches from the front show that the German line has been bent back from five to seven miles by the highly offensive of the British and French troops.

Millions of shells find their achievement as one of remarkable importance in view of the success of the German positions and great amount of artillery and ammunition used behind the German front.

The Germans have the advantage of strategic heights and are making for the quick shifting of troops, but this advantage has proved futile in the efforts to halt the advance of the allied troops.

The capture of Fiers south of the Somme has wiped out the German salient which extended to the French line at that point and has also placed the allies in a position to menace important railway routes.

The chief objective of the French forces taking part in the offensive is Peronne. If Peronne is taken the allies will then continue their drive toward Cambrai, it is believed.

During the two days' advance the French have captured 6,000 and the British 3,500 prisoners.

French Advance Continues.

The French official report follows: "To the north of the Somme the fighting continued to our advantage throughout the day in the region of Hardecourt and Carlin. East of Carlin we have captured a quarry, which had been previously organized by the Germans."

"To the south of the Somme we have gained a footing at numerous points in the second German line between the river and Asselviere. The village of Fiers fell to our hands, together with the wood of Merencourt, further to the east."

"The number of wounded prisoners captured by the French troops is more than 4,000, of whom 150 are officers. We have also taken a great amount of material. Thanks to our complete and complete possession and also our infantry, our losses were very small."

"On the front north of Verdun there were no infantry actions during the day. The bombardment continues actively in the region of Hill No. 203 and the sectors of Fleury and Domleug."

The British official report follows:

"Substantial progress has been made in the vicinity of Peronne, which was captured by our troops. Up to noon 600 more prisoners had been taken in the operations between the Ancre and Somme, bringing the total up to 2,500, including those captured on other parts of the front at night."

The British official statement follows:

"Western theater—The great Anglo-French offensive in unmet attack, which had been extensively prepared for months past, began yesterday on a front of 25 miles after strong artillery and gas preparation for six days on both sides of the Somme and Ancre brook. From dawnbreak as far as the region of La Boisselle the enemy obtained no advantage worthy of mention, heavily shelled first line into a position."

"On the other hand, he was successful in penetrating several points in the first line trenches of our division in the region abutting on both banks of the Somme and was able to advance. This division had to be withdrawn from the area for checking an advance from the first to the second line. The materials in the first line which could not be moved were rendered useless."

"On the Meuse the enemy strongly re-emphasized repeated his attacks on Fort Tercet with explosives against the Thiaumont works, but was compelled to retire under our curtain of fire."

Robbing Your Own Pay Envelope

The password and key to lasting success lie in two little words, "earn and save." Many men the "pay" envelope, but they do not use the through ticket of "save," are few and far between.

"I've earned it, and I am going to spend it as I please," say many young men and women, staidly and thoughtfully.

When the pinch of want comes the lesson of thrift comes too late. Once down and the worst bargain the man who wastes his opportunities and neglected to save against a rainy day.

Young men—Young women, are you robbing your pay envelope for pleasure and passions which in later years will deprive you of the comforts and necessities of life?

Take \$1.00 from your pay envelope this week and open a savings account with this strong bank. Then plan to lay aside a certain percentage of your income every payday thereafter.

Meadowlark
 Curlews magna and Sturnella regularis.
 Length, about ten and three-fourths inches.
 Range. Nested generally in the United States, southern Canada, and Mexico to Costa Rica; winter from the Ohio and Potomac valleys and British Columbia southwestward to the Gulf of Mexico.
 Habits are different. Our two meadowlarks, though differing

the crop, and in spite of constant watchfulness and insensurate desire for nesting the birds lose 10 to 15 per cent of the rice in the usual harvest.

Sitta carolinensis
 Length, six inches. White below above gray, with a black line through the eye. In the United States, southern Canada, and Mexico to the Gulf of Mexico.
 Habits and economic status the same.

Green-plumed and sparsely covered with a thick growth of grass or weeds, with heavily water-forged the condition, best suited to the muskrat's taste. The song of the western mall is loud, clear and monotone. That of the mall is relative to tender and looser much by comparison. In many localities the muskrat is raised and shot as a game bird. Latham.

Range: Breeds from Ohio northwest to Alaska, and south to Mexico, and northwest to British Columbia, winters in South America.

Food: Inhabits enormous flocks. When American writers speak to the beauty and attractiveness of our native birds, among the first to be mentioned in song and story was the bobolink. Few species show such striking contrast in the color of the sexes and few have songs more unique and whimsical. In the spring the first bird heard for its beauty and its rich melody, in the South it comes deservedly named the "first singer." National Guard Letter

Camp Perry, Aug. 18, 1918.

Dear Sir:

Today, National Guardsmen stationed at Camp Perry were given their quarters into the company streets, and compelled to sleep in a trench of rushing water.

About five o'clock in the afternoon a terrific wind arose followed by a down-pour of rain as has never been known in this part of the country. The wind being so hard that it tore tents down, leaving about ten tents in the entire city street, and Brig. Headquarters quarters. Tents were torn from the stakes so quickly that the men had no time to show from their quarters.

Some were left as they lay on their backs, while others were carried in falling canvas and tent poles.

Private David Heineman and his company were among the first to be hit by the falling tent poles.

Private Heineman received a blow on the head by a falling tent pole, and Private LaValley was struck by a flying tent pole coming from the other tent, the blow being so severe that he lost control of his speech for several hours.

Several men in the first had broken arms and wounds, caused by the falling tent poles.

AFTER FORTY YEARS
REPUBLICANS HAD IT ALL THEIR OWN WAY—NO DEMOCRATIC COUNTY TICKET IN THE FIELD
The primary election last week Tuesday was a decidedly one-sided affair. It resulted in placing in the field a republican ticket, and that is all; and it is a good, sound ticket.

A detailed illustration of a sack of flour, likely the 'Duke Flour' mentioned in the text. The sack is shown in a three-quarter view, with its top and side visible. It has a textured, burlap-like appearance. The top of the sack is slightly rounded and shows some stitching or binding. The side of the sack is covered in a pattern of small, irregular shapes, suggesting the texture of the material. The sack is positioned in the lower right corner of the advertisement, below the 'DUKE FLOUR' logo.

What Really Matters

It is not the money you have, but the money you have left when you are dead. That is what really matters. That is why you should invest your money in a safe place, where it will grow and where it will be safe when you are dead. That is why you should invest your money in the Charlevoix State Savings Bank.

Daily Thought

Even in the smallest of life, we can find the greatest of things. We can find the greatest of things in the smallest of life. We can find the greatest of things in the smallest of life. We can find the greatest of things in the smallest of life.

Do you want to save 25% on your Coal Bill?

In 75 cases out of 100 this can be done. Good grades of soft coal contain many heat units in hard coal. The difference is in the way it is burned. If you shove the heat units to be wasted in smoke, you are the loser. If your stove is equipped so that it will consume all the heat units which usually go out with the smoke, you can save at least 25% of your fuel bill. If you are using a tons of coal at an average price of \$5.00 per ton, or \$4.00 in an ordinary soft coal heater, you can be using either a ROUND OAK or UNIVERSAL smoke consuming coal heater get fully as much heat from a tons of the same coal - a saving of \$2.00 on your winter coal bill. What if you pay your money to investigate. Remember, we guarantee the stove to do what we claim for them or your money will be cheerfully refunded.

SCHOOL COMMISSIONER'S COLUMN

Max L. Stewart, Commissioner

First annual of visits completed in Marion township Monday and Tuesday. Marion Center, which is Marion No. 1, has all new steel-framed adjustable desks. This district and Horton's have the best seating conditions in the county, city schools not excepted.

Marion township teachers' meeting was held at Marion Center Tuesday afternoon. Every teacher was present and a lively meeting ensued. It was an inspiration to the last district teachers to look at the new desks and not what can be done by progressive district fathers.

Horton for the first time, the sixth Standard School in Charlevoix county. The first Standard School in Marion township, Horton, has been there for over twenty years.

Charlevoix school ordered closed because of two epidemic cases in town. East Charlevoix school has been closed for a few days.

Howe Falls schools have had the quarantine lifted. Let us hope this the end of misfortune to our schools and to our boys and girls.

Hart Lake school on Monday, Friday, the 27th, was well attended. A good time reported by all. The commissioner was glad to see this.

The commissioner has postponed her trip to Grand Rapids three days, but will attend all the general district meetings during the last of the week. No news next week.

SPECIAL: First Standard School in Marion township.

School in Charlevoix county.

On the evening of Thursday, October 26th, the patrons of the Marion No. 1, gathered to celebrate the turning point in the history of their school. They have met and of the requirements of the state inspection of last spring except the placing of a few lines in the history of the school.

W. C. T. U. CONVENTION

THIRTY-SECOND ANNUAL CONVENTION HELD AT CHARLEVOIX WAS A BIG EVENT FOR THE ELEVENTH DISTRICT

The Woman's Christian Temperance Union of the Eleventh District held their 32nd annual convention in this city Tuesday and Wednesday, October 27th and 28th.

Representatives from all parts of the district, which includes ten counties, were in attendance.

The beautifully printed program included reports from Superintendents, County Treasurers, Local Union and General Officers, as also the usual business and social sessions.

Arrival for the first time, the sixth Standard School in Charlevoix county. The first Standard School in Marion township, Horton, has been there for over twenty years.

Charlevoix school ordered closed because of two epidemic cases in town. East Charlevoix school has been closed for a few days.

ALT NUREMBERG

By ELLIS BROWNE.

Professor Nuremberg brought his class to a halt before the door of the last of the last famous buildings which he had visited in the city of Nuremberg.

In the closing moments of the last evening, the professor carried us very near to the heavenly gates, for truly it seems that we had reached the end of our journey.

The benediction was pronounced and this closed one of the last district conventions ever held.

The thought of dinner and evening brought a flash of happiness, for he had kept his class on the road for four long days, and he was now at home.

On the morning of the 27th, the professor was at the hotel, and he was now at home.

A BIRTHDAY JAMBORÉE

Mrs. R. M. Sue was 50 years of age

Monday, and the event was celebrated

at the home of the venerable lady by

an afternoon gathering, including a

number of her lady friends of pleasure

From Our Soldier

El Paso, Texas, Dec. 3, 1945.

Capt. A. Smith,
Editor of Sentinel.

Dear Friend:

We are having some awful cold weather here now, freezing every night. It is very hot during the day but at night we have to wear overcoats when we go out and keep wearing fire in our tents.

Nothing very exciting here now, just drill and problems to work out. Friday Dec. 1, we were part of the 11th Division, leaving El Paso, Tex. and taking the charge of all the troops here, being the 11th Division. The 11th Division was up to the 11th division there was 11,000 men in this review which we may never see again in our lives.

The review took place at Fort Bliss with bands playing and colors flying.

We are leaving the reviewing officer in company fronts, we then marched to the parade grounds.

The boys are all looking forward to home and to see their families. The time is go home in 10 general the citation is that we will be home soon.

Roumanian Loss, 412,000.
The Roumanians have lost approximately 412,000 men in prison since Roumanian entered the war, about one-sixth of their army, those suffering casualties estimated at 200,000, writes the military critic of the Overseas News agency in his view of the Roumanian campaign.

Not only has this loss to the Roumanians resulted from the campaign continues the writer, but the Roumanian victory has made possible the strengthening of the front by about 500 meters, or more than 340 miles.

Option Eating an Old Vice.

Option eating, or optioning, is a very old vice. Without harping back to the time of Adam, there are many writers and speakers who claim to be in the habit of optioning. The option habit was introduced into the world by the Queen of Sheba, who should have had an intimate knowledge of the subject, he takes it to his grave, and most men are certain only to try to accept that writer's word as the only guide.

Grain Drift in Military Service.

During our military service, I saw a lot of grain drift. It was a very old vice. Without harping back to the time of Adam, there are many writers and speakers who claim to be in the habit of optioning. The option habit was introduced into the world by the Queen of Sheba, who should have had an intimate knowledge of the subject, he takes it to his grave, and most men are certain only to try to accept that writer's word as the only guide.

Not Improperly.

A gentleman of a very capable and emotional nature had the opportunity to see his friend who had been in the military service. He was a very old vice. Without harping back to the time of Adam, there are many writers and speakers who claim to be in the habit of optioning. The option habit was introduced into the world by the Queen of Sheba, who should have had an intimate knowledge of the subject, he takes it to his grave, and most men are certain only to try to accept that writer's word as the only guide.

The Law and the Fact.

Your case would have been strong. Mr. McArthur, a lawyer, told me that he had been in the military service. He was a very old vice. Without harping back to the time of Adam, there are many writers and speakers who claim to be in the habit of optioning. The option habit was introduced into the world by the Queen of Sheba, who should have had an intimate knowledge of the subject, he takes it to his grave, and most men are certain only to try to accept that writer's word as the only guide.

Dogs Reared for Human Food.

There is a certain class of people who are in the habit of optioning. They are a very old vice. Without harping back to the time of Adam, there are many writers and speakers who claim to be in the habit of optioning. The option habit was introduced into the world by the Queen of Sheba, who should have had an intimate knowledge of the subject, he takes it to his grave, and most men are certain only to try to accept that writer's word as the only guide.

Daily Thought.

There are certain things in life that are in the habit of optioning. They are a very old vice. Without harping back to the time of Adam, there are many writers and speakers who claim to be in the habit of optioning. The option habit was introduced into the world by the Queen of Sheba, who should have had an intimate knowledge of the subject, he takes it to his grave, and most men are certain only to try to accept that writer's word as the only guide.

Corporation.

A corporation, whose existence was in the habit of optioning. They are a very old vice. Without harping back to the time of Adam, there are many writers and speakers who claim to be in the habit of optioning. The option habit was introduced into the world by the Queen of Sheba, who should have had an intimate knowledge of the subject, he takes it to his grave, and most men are certain only to try to accept that writer's word as the only guide.

Harm is None.

It usually takes a lot of common sense to get a man out of the habit of optioning. They are a very old vice. Without harping back to the time of Adam, there are many writers and speakers who claim to be in the habit of optioning. The option habit was introduced into the world by the Queen of Sheba, who should have had an intimate knowledge of the subject, he takes it to his grave, and most men are certain only to try to accept that writer's word as the only guide.

THRIFT AND EFFICIENCY

CHARLEVOIX COUNTY BANK IS PROVIDING EFFECTIVE VOCATIONAL GUIDANCE AND DEVELOPING THRIFT

An illustration of the benefit of service within the scope of a modern financial institution is given by the Charlevoix County Bank through their active interest in Vocational Education and the utilization of their Thrift and Efficiency.

The officers of this bank are not only making it their business to be up-to-date in the latest methods of banking, but they are also interested in the community in place before the greatest possible number of the most helpful information along the lines of Vocational Training.

It would be hard to exaggerate the value of this service, both to the individual and to the community. It is directed to a field of endeavor that offers the greatest opportunity, and in the community in general, and the efficiency of its individual members.

It is not only the individual who is benefited by this service, but the community as a whole. It is a service which is being rendered to the community at large and particularly to the younger element, a constant endeavor to bring about the greatest general prosperity. Any who are not getting the Vocational service should send their names and address to the bank.

TWO DEER WITH ONE SHOT

Although the law allows a hunter to get out on one deer in a season, it is the custom of the South Branch country, however, to get two at one shot, and both were big bucks, too.

While hunting in the woods near the mouth of the river, a hunter came along a path and saw two deer. He fired and both were killed.

It was a week since I wrote any thing in my column. I have been so busy with my work that I have not had time to write.

GEO. H. VAN PELT DELIVERED
THE FOLLOWING ADDRESS
JANUARY 4TH, 1917

I attended a meeting in Danville, Ill., about two weeks ago as a delegate from the Chicago Association of Commerce to the good roads committee of Cook County, where we built some four miles of concrete road, during the past year, connecting our city with the county roads, coming in from all directions. This was the meeting of the Illinois State Highway Association, and for nearly two days of speaking in which many people gave their opinions, pro, and con, it was decided that the proper thing for the State of Illinois to do at the present time was to take advantage of the large sum contributed our government for state road aid, and

He was asked, at Danville, where business was, I said, "I have no news, but I am intensely interested in good roads." "Well are you a builder?" "No, I am not."

"I tell you you are not a builder," "I can't tell you why. I do not know enough to build a good road. I do know how. It requires a man of experience, and who knows more than I do, to build it." I learned also during the trip that the men who owned and builders along the line of my trip had found that almost invariably without exception, they found that the building of dirt or macadam roads, was throwing away just as much money, they all said, as it cost to build good roads to be built that would be permanent, one was brick and another concrete. These two roads are roads that will be built in all the municipalities after they have learned

They take a drive. It will help immensely. I know the advantage of this various places along my tour.

Getting back to our motoring: It is a question now of repenting for mistakes made in the past for we have almost seen the evil effects of building gravel roads, even for our light machines. As you people here probably know better than I do, because I got away before the fall rains came, it is while they were fairly passable while there was here, common sense teaches that there must have been a good many hard places in the road later.

In building our roads now, it is almost necessary that we build for the future, because auto trucks are here and will be as much as the touring

was brushed being transported. I saw trucks in New York state carrying eighteen or twenty miles per hour. I said from the truck, "I don't know if the Farmers there take advantage of the use of their telephone in calling up the different villages, and see who will pay the most for what they may have to offer. One man told me how he had made a lot of money by selling to the city by the truck."

At one meeting in Shelby, where they voted to send the state for \$200,000 and build 5,000 miles of road, the farmers were the strong supporters of the project. They were told that if they did not do this, they would not understand it thoroughly. The farmer said, when asked to spend did not come here to talk. I said, listen, but this I know, before we build roads, many times there was a 500 pound horse, and it was hard to get it out. In fact, sometimes we

A party who was here last summer and to whom I was talking with regarding the buying of property, made this important remark, he would not buy land in any county where they would feed away as much money in fine foot roads as we have been doing here, and where it was out of commission the year after the roads were built. Here is another thing to remember. The people of the United States prior to the war, spent in going abroad over \$200,000,000 each year, and had been doing it for several years. These are people, or some kind of people, are still in the United States and they are spending their money at home and the greater inducement that any place makes for these people to visit, the

to ask, if you conclude to buy new roads, pay in round numbers seventy-five miles, to once in a while in some obscure place, mark in the concrete road "Van Pelt." That will be a monument higher than the statue of Liberty in New York, and fully as lasting.

Masonic Supper

The annual meeting of the Masonic Building Association, which is auxiliary to Charles' Lodge, and a corporate body, was held at Masonic Temple Tuesday night, and the meeting was given a social complexion by the serving of oysters and coffee in the language hall.

A goodly number of ladies were present with their husbands. The report of the secretary and treasurer showed the association to be in good financial condition. W. H. Miller was elected chairman, Dr. F. H. Wilkinson secretary, and J. M. Conrath, treasurer, the ensuing year.

SLAVERS LINKED FOR STIFF JOINTS

Rheumatic pain and stiff joints are linked to slavery. The pain is caused by the same bacteria that caused the slave trade. It is a reminder of the suffering of the past.

Attention! Sentinel Readers:

The following letter from THE GRAND RAPIDS PRESS advises us of an increase in rates beginning January 20.

We knew this increase was coming (it simply had to come). However, the CHARLEVOIX SENTINEL can protect many of its subscribers if they will act at once. Don't wait but come in now at the \$2.00 per year rate. If your subscription expires in a few weeks come in and receive at once and save \$1.00.

Copy of The Press Letter:

Grand Rapids, Mich., Dec. 28, 1916.

Charlevoix Sentinel,
Gentlemen: We beg to advise you that The Press will increase its subscription rates on the R. F. D. from \$2.00 per year to \$3.00 per year, \$1.60 for six months.

As publishers you know this action is forced upon us by the increased costs to every newspaper, and that nearly all of the papers in the country have increased their rates.

Trusting to receive your kind co-operation, we remain,

Sincerely yours,

THE GRAND RAPIDS PRESS.

SPECIAL NOTICE

To the Press and Sentinel Readers:

The Grand Rapids Press January 20, 1917, will increase their subscription rates on the R. F. D. from \$2.00 per year to \$3.00 per year.

The Sentinel's agreement with The Grand Rapids Press will save you \$1.00.

The old price for both papers for one year, \$3.15, will be good until January 20-not later. Don't wait-don't delay-we positively can not accept orders after that date at the old price. If your subscription expires in December or in January, get in at once. Good on R. F. D. only.

The Sentinel.

P. S.-The Press, Sentinel and the Michigan Farmer all for one year \$3.40 until Jan. 20. After that date the price advances to \$4.40.

"I dare say. If this is the way you let them pay your bills, you'll be the first and the envelope, and the other pay colored."

Very proud of Doctor Mack was his brother, modestly proud of his skill, of his handsome person, of his easy good nature, very humble, too, of his own knowledge and experience. If he ever suspected his lack of River flow he Mack, he just thought vainly, that was not right himself. Finally, Mack was giving a hard worker. He had a right to play hard.

He brought his black ink for the eyes with a microscope, thermometer, every thing, glasses, small vials, a lamp, of alcohol, cotton in a hot water bath, and, the harness, a few magazines, collection of instruments, in

She faced a Young and Attractive self. She was smiling brightly.

"Two young," said Max briefly. "Why she can't be your sister?"

"Well, even eighteen, I see you think my girl of that age is responsible enough to be your sister," said Max, looking at her. "But, although I have noticed her lately, she used to be in the house for a long time, and I never place my hands with a lot of ornaments. It keeps the fingers all covered."

"Since when?" asked Doctor Ed with a grin.

"I have you found good looks in a girl's handiwork?"

"I have never," answered Max.

The other nurse had her back to him. When she turned, he looked at her with a stare. He had never seen her before. He forced a young and attractive girl, faintly familiar.

"We tried to get you called by telephone," she said. "But the nurse from the line didn't. Miss Simpson's father called this morning, and she knew you would have to be here. I was waiting for my turn, so I went last."

"Father a good substitute for a woman," he commented.

She was a very pretty girl. He had seen her before in the hospital, but he had never seen her before.

"I figure out that if only a few people by Philadelphia could be made to understand the importance of the situation we're in, a year or two would be saved."

The conclusion was so apt that he had to pick up his hat and go. He was in Philadelphia for a year.

Popular.

The definite conclusion was that a salesman in a large city was one that he had applied to for teaching years.

He had a popular young woman, holding up

the way she was. Rather stunning she was, he thought. The combination of her looks and her personality made her memorable, just in time, to replace her at Miss Simpson's funeral.

"I am Miss Hardeen," explained the schoolmate, and held out his long white glove. "I'm glad to meet you. I've been working with Miss Simpson on duty, probably the most interesting. Miss Hardeen, in spite of her looks, is a very nice person. I'm a young sergeant, right. When he was finally in the coat she was rather shocked and protesting."

"What's your name, of course," lied Doctor Max. "—and I'm sorry," he added, "but I'm not a doctor."

Miss Hardeen's face brightened. "Well, yes, indeed," she said, "I'm assuming a judicial air, but I'm not a judge. I'm a sergeant, and everybody knows I got tired enough to make what you'd call a good job."

Renovating Serge

To take spots off sergeants' uniforms put a team of sergeants to work. They were to be ready to get it started this next day, strain and bustle. A little later, when the sergeant's work was done, the sergeant's work was done.

THE BASIS OF CANADA'S RICHES

A Theme Discussed by the Wall
Street Journal.

In speaking of Canada a short time
ago, the Wall Street Journal made the

statement that "The basis of Canada's riches is the fertility of the soil, and so long as warfare can take place while her grain will increase in demand as the population of the world grows, all an investment like Canada is worthy of consideration." These words are well worthy of attention, especially coming from such a source as the *Canadian Financial Journal*. With a land area exceeding that of the United States and with fertile areas waiting under cultivation, the wealth of Canada's future can scarcely be overestimated, while the wealth there is such as to let her come prominently before the world.

During the past year thousands of farmers in Western Canada sold their crops for more than the listed cost of their land. Thanks in part from \$10 to \$50 an acre, the listed price would \$10 to \$25 an acre. Stock raising and dairying were especially profitable.

The year 1915 was such a wonderful crop and successful year for the entire country, and many farmers voted not to re-elect that land had hung over them long before they came to the country, and the year 1916 put them in a condition of absolute independence. A report is listed below by a high official might seem uncorroborated were the particulars not well known.

known. This is a southern Alberta story. A farmer wished to real an adjoining farm on which a loan company held a mortgage. The applicant said he wanted the first ten bushels of wheat, for which he would divide, giving the loan company one-third. After discussing he paid into the bank at Calgary \$10 per acre for every acre cultivated to the credit of the loan company, as their share or their third of the crop. Sixteen dollars per acre was received. Six bushels were \$32 and in addition the first ten bushels of wheat, found on this same acreage can be purchased for from \$12 to \$20 per acre. Worth

derful yields are reported from all parts of the district. Recently 4,000 acres of a ranch were sold to an Illinois farmer; 300 acres of wheat in 1940 produced a yield that averaged 42½ bushels of wheat per acre. George Hiltner, farmer of Providence, R. I., on a southern Altona farm, had 2,052 bushels of wheat from a 5-acre field, or over 40 bushels per acre, and from a 50-acre field of oats got a return of 76 bushels per acre and still had some straw left over for feeding.

A report just received by the Altona government gives the yield of wheat in the showing of 1940 as 28 bushels per acre; 45 bushels of oats and 30 bushels

Through thorough planning, the farmer had been able to reveal to them some of the agricultural possibilities, many presented to any other part of the world.

Florida farms, selected with some moderate discipline, have led them to independence and affluence with records of wonderful achievement unexpressed amongst the phenomenal industrial successes of which Canada will long boast.

Many almost incredible yields have been reported by reliable authorities, wheat exceeding 70 bushels per acre and corn 140 bushels.

During the Florida show that the east

of furres has been more than repaid by this year's crop. In one instance, land purchased for \$3,000 produced a wheat which was sold for a little over \$10,000.

During the year 1917 there will be an enormous amount of labor required to take care of the crop in Manitoba, Saskatchewan and Alberta.

One of the problems which Western Canada has to face every year is the securing of an adequate supply of labor to handle the harvesting and marketing of its big crops. This problem, indeed, is always present in any country that has a big agricultural production. In the case of Western Canada it is enhanced by the comparative

In Western Canada the present difficulties are increased by the war. A very large number of Western Canada's small population have been called to arms with the Canadian forces in Europe, and at the present time there is generally speaking no surplus of labour for the ordinary channels of industry, so my pointing of the abnormal demands for labour is not surprising. The situation, however, has to some extent been met by the action of the Canadian militia government, who have released certain men who are still in training in the

Swedish military, names and who desire to engage in harvest work. For a period of generally one month.

The actual number of men engaged in 1937 in harvest work was about forty and fifty thousand. Wages were higher than usual, running from \$2.50 to \$4.00 a day, with bonus from \$5 to \$50 a month—advertised.

How December Got Its Name
The first appearance of the calendar was in the reign of Numa, the second king of Rome. The name being derived from the moon, the first month was called January from the moon being in the first quarter on the 1st of the month. In 753 B. C., the first month was called March, and December was to twelfth place. The name of the month was changed to December because the first of the month was the first of the year, and the first attempt was made to call it without success. For a long time the name of the month was in the reign of Constantine.

Onion Soup—The four glass-sized onions chopped very fine, half fat, half stock of tomato, cut in small bits, laid on a fire, and covered with water, until the flavors blend. Add two cupsful of cold water and let it come to a boil. Strain it through a cloth, and add salt. Do not pour off the water, but add onion and a little handful of rich milk; season with salt and pepper, and serve with a spoonful of butter. When eggs are plentiful pour on six eggs and pour the soup over them. This is a very nourishing. Young and butter cooked together, using a tablespoon of suet, will make a very delicious soup. Serve with soup strainer.

SPECIAL ANNOUNCEMENT

As you are all aware the Furniture Manufacturers have made very sharp advances in their prices, and every retail dealer must pay the prices if he expects to get the merchandise. And in some cases it is impossible to get it in a reasonable length of time after giving the order. This our buyer found to be the case while at the Grand Rapids market. Owing to these advances all retail dealers must make similar advances in their prices or go to the wall. However we have decided to give the public the benefit of LAST FALL'S PRICES

Until February 15, 1917

At which time an advance of about 15 percent on an average will be made.

For this sale we will store all merchandise purchased until April 15th when requested to do so, but no merchandise will be so held unless fully paid for. By taking advantage of this sale you will serve your pocket book a good turn.

MINORITY IN CONGRESS BLOCK PRESIDENT IN HIS EFFORTS TO MEET THE CRISIS

The unaccountable action of Congress in refusing to confer on the president the power to arm American merchant ships for the protection of American lives and American commerce, constitutes an additional crisis in the relations between the United States and Germany. The most startling development was that which the president declared last Thursday, in which it was made known that Germany had attempted through its crooked diplomatic channels, sought to create an alliance between Germany and Japan against the United States. Japan promptly repudiated the proposition, Mexico is adamant.

The president was inaugurated March 4.

A DIFFERENCE IN THE INVESTMENT

**The Western Canada Farm Pro-
fits Are Away in Excess.**

Mr. George H. Barr, of Iowa, Indus-

Mr. Burr says that farm land at home to date is held at \$150 per acre. These lands are in a high state of cultivation, with splendid improvements in houses, barns, stables and all, and yet, the revenue returns from them are only from one to three per cent net.

Last year 1915, his half share of crop on a quarter section in Shakota town, about on nose breaking, gave him \$25.00 an acre. The crop yield was 55 bushels per acre. This year the same quarter-section, sown to flint corn on stubble gave 3,280 bushels. At \$1.00 per bushel, gave him \$2,543.08. Good, half the income and half the threshing bill cost him \$453.90. Allowance of share of the expense of his animal, except the expense of the feed at quarter-section even to \$141.00, and he line left \$2,089.08, that is 50 per cent of the original cost of the land. Any one can figure up that another year

Mr. Barr was instrumental in bringing a number of farmers from Iowa to Saskatchewan in 1913. He referred to one of them, Geo. H. Nerton, a tenant farmer in Iowa. He bought a quarter-

The reply was: "Tell them I shall never go back to live as a tenant for any man." Another man, George, who shared the same opinion, was asked to go to the farm in 1914, 1915, 1916, he has paid for the land. Mr. Barr asked him a week ago: "I tell you, George, what shall I do with the land?"

Mr. Barr when at home becomes a very busy man, and is engaged in dealing in live stock. On his first visit of inspection to Saskatchewan, he realized the opportunity there was for a large number of small, quarter-sections, not occupied, were fenced and rented as pasture lands to farmers and stock raisers. He saw that the cattle supply for the feed all summer while corn is growing, and then to the

He says that a few drops of a drug called freezeone, applied directly upon a tender, swelling corn, instantly rendered it numb and harmless. He tried it on his own, and lost it. Life's right out.

What Well Dressed Women Will Wear

By REV. JAMES M. GRAY, D.D.

The question of dress is one of the most important in the life of a woman. It is not only a matter of personal appearance, but it is also a matter of social standing.

Well-dressed women will wear clothes that are simple, elegant, and becoming. They will not wear clothes that are flashy or ostentatious.

They will wear clothes that are made of good materials and that are well-tailored. They will wear clothes that are in keeping with the season and the occasion.

The next moral effect of the success of the Soviet Union is that it has shown that it is not so much a matter of man the ultimate result of the struggle, but of the people, and of the Morning Star.

The practical effect of the success of the Soviet Union is that it has shown that the Soviet Union is the only country that has been able to stand up to the attack of the capitalist world.

NUMBER 1

Charlevoix County and Charlevoix Must Help to Feed the Country.

Farmers:—

Make every acre on your farm produce, and produce more than ever before.

City People:—

Make your garden feed your family and others, if possible. Don't fail to use all the space you have this year.

Vacant Lot Owners:—

Make every vacant space produce food product of some kind.

The Secretary of Agriculture Says:

"Means must be devised promptly to insure the largest possible production of food supplies. It must be recognized that the man or boy who puts all his energies into the increased supply of food is as truly a soldier of the republic as he who, in uniform, fights in the ranks."

ANOTHER BAD HOTEL FIRE

Hotel Charlevoix Put Out of Business by a Bad Fire—Upper Story and Roof Destroyed

At ten o'clock Monday morning fire broke out in the attic of the Hotel Charlevoix and gained such headway that the fire department could get water service. But again we have cause to praise the fire boys, under chief Marshall. They were on the spot promptly and the three streams of water which were pointed into the building soon had the flames under control.

But the tons of water that were thrown into the building practically ruined the interior of the building. The building was surrounded by a large crowd of people almost instantly, and the contents of the hotel were carried to the street. For a time it looked as though the entire building was doomed, but, in harmony with our usual good luck, there was no wind, which fact undoubtedly prevented a disastrous conflagration.

The Hotel Charlevoix is owned by the Housatonic. The cause of the fire can only be conjectured. One theory is that it was a spark from a near by chimney, of which there are several, and others think that defective electric wiring was the cause. The loss is covered by insurance, in favor of the Charlevoix County Bank's mortgage.

While Charlevoix will keenly feel the loss of hotel accommodations, it is likely that the Fountain City House and the Hallett will open earlier than usual to cover the crisis. This fire emphasizes the necessity of another good big brick city hotel.

LATER: A survey of the premises reveals the fact that the office, dining room and the north section bed-rooms, can be put in shape for use. The office and dining room have metal ceilings. Therefore it is stated that the house will be opened the last of this week, and as soon as the insurance adjuster does his work repairs will be made.

WHEN WILL OUR TROUBLES CEASE?

Why, you may wonder, should I ask this question? I am a Christian and I believe in the power of prayer. I believe in the power of the Christian Church to bring about the end of our troubles.

It seems as though Fate, flying through space, were letting loose carts of mallets upon Charlevoix.

Beginning with arson, we are within the past week smitten with an unspoken, silent assassin of the Swift sort, and at growing out of a conflict between evangelistic revivals.

We would caution the public against hasty judgment. Innocence is assumed until guilt is proven.

Meanwhile the meetings continue, and we hope conversions will be many, and the nearer the end the better. They call it Charlevoix the Beautiful. It needs a bath and a shave, then clean raiment, before it brags any more about its beauty.

Somewhere in town, we forget just where, we have seen a banner bearing the legend "Get Right With God." We move an amendment: "Get right with yourself and your neighbor, then you will be all right with God."

And now, even as we have written the preceding lines, another chapter is added to the most disgraceful record that has ever been written in Charlevoix church annals.

We shrink from a recital of the story indeed, we cannot, without offense, print details; for there are good Christian souls who, in their loyalty to the church of their faith, think, or try to think, that the "King can do no wrong." Those good people we respect. They love the church of their fathers, and perchance that of their grandfathers, and loyalty is a virtue.

But, permit us to remark, that in all probability the Christian Scientists, Episcopians and Catholics are in a very comfortable frame of mind.

If the sword of Damocles does not hang over the heads of Charlevoix county tax-payers we are mistaken. Here is a part of the record:

Heaviest embezzlement case, Beaver Island "riot" case, Hotel Michigan arson case.

Present criminal case, supplemented by contempt proceedings, concerning which we could not make comment for obvious reasons.

But they all mean an augmented tax-roll.

"Officer and Gentleman"

It is announced that Major Roy C. Vandereck has resigned his position as publicity manager for the Pere Marquette R. R. Co. and accepted an appointment as military aid to the governor, with the rank of colonel, in which capacity he will have charge of matters pertaining to the recruiting and mobilization of Michigan troops.

Major Vandereck served with the Michigan National Guard Brigade for three years, during which period he was promoted to the rank of major and chief of artillery. During the twenty years Maj. Vandereck served with the Guard there was not a day that he did not acquire knowledge and efficiency in his calling. He is every inch a soldier, and as fine a gentleman as ever wore side arms.

In the field of the Michigan National Guard Vandereck rises to the West Point level, and, in the formation of new regiments, which is altogether likely, Van should be given command of one of them.

The writer, who has been comrades with him in camp, and been out of action in the field by his guns, congratulates the governor on his selection of Roy C. Vandereck to direct Michigan's military affairs.

CAPTAIN BERDAN OFFERS SERVICES

April 12th, 1917
Honorable Albert E. Sleeper, Governor, Lansing, Michigan.

My Dear Sir:

In the event of the present war being carried to a successful finish, all of our younger men will be required for the army or for employment, either in the factories or on the farms, and I believe that the safety and interest of the State can be protected at home by the older men.

I, myself, am a veteran of the Civil War, and was Captain of Company H, Fifth Michigan Cavalry, being one of the four Michigan regiments belonging to General Custer's Brigade.

I desire at this time, or whenever the safety of our State and country needs the services of more men, to raise a regiment of volunteers amongst the veterans of the Civil War to act as a home guard to perform such military services as the Government of the State might require, or the Government of the United States, at any place within the nation, where needed, and would appreciate very much, if you would advise me, or furnish me with the proper authority to raise such a regiment.

Respectfully yours,
HARRISON BERDAN.

Here is a Sample

We have never believed in the printing of "word of thanks" in time of sorrow and tribulation. We have thought many times that they should be eliminated. Here is one that we clip from a Charlevoix county exchange:

"We wish to thank the kind neighbors and friends who have so thoughtfully sent station, flowers and plants to our loved one during her last long illness. We also express the kindest and most affectionate thoughts to our loved wife and mother and for the beautiful flowers sent by Fraternal Orders and friends."

And here is another from the same paper:
"We wish to thank our friends and neighbors for the kindness and sympathy shown us during our recent bereavement."
Cut 'em out!

FOR COUNTRY

Four Charlevoix Boys go to Front to Swell New Army

Saturday was a red-letter day for Charlevoix in its relation to the great world war.

Charlevoix fairly bubbled over with patriotism when four of its husky lads left for the mobilization camp at Columbus, Ohio. These are the four:

Glen Sae,
Frank Voshug,
Archie Cassels,
Raymond Solomon.

There were glad, patriotic shouts and flags, flags, flags; but we saw tears, and there were many moist eyes at the station. To some it was a solemn moment—those who went to the front in war.

The W. R. C. were there, with Capt. Harrison Berdan as their spokesman. Berdan, he of Alger's 5th Cavalry, the veteran of Gettysburg and a score of other great conflicts. The old warrior read a short address to the quartet of recruits, and, in the name of the W. R. C. passed to their breasts miniature copies of the glorious flag which they go forth to defend. And as the octogenarian patriot finished his duty for the Corps, he added his own heart-felt good-bye to the four young Americans, and we saw tears in the old trooper's eyes as he turned into the crowd, but few of whom realized the memories that were awakened—memories of '61. It was a solemn moment. The country was at war, and Charlevoix was sending its first contingent to the front. More will follow. And the heart of Charlevoix, notwithstanding its tribulation, throbbed with pulsations of patriotic earnestness. About twenty flag-decked automobiles paraded the principal streets to the station. And old-fashioned martial music filled the air, with, Comrade Wm. Collins sounding the same old rattle that he sounded in the days of yore when the Union was saved.

This is but the beginning. More husky, patriotic lads will follow. Private McGinnis, a clear-cut, intelligent, ideal American soldier, will continue the work, and if he does not finish with a shrapnel in his arm, Charlevoix will kick.

There is some chance that the bill may be passed at this session.

WOULD ABANDON ROAD PROJECT

Hope Thus to Aid State's War Loan Soon to be Undertaken—Emmett Co., May Be Hit

That the sixteen counties in Northern Michigan are in a position to save the state of Michigan more than half a million dollars, which sum would be expended for the state war loan, is the opinion of L. B. Nelson, deputy state highway commissioner.

Mr. Nelson points to the fact that Governor Sleeper has asked the curtailment of all appropriation expenses in view of the fact that the state is to provide the sum of five million dollars for war aid to the national government. The government has asked that all improvements that are not absolutely necessary be postponed until the end of the war, as the tax rate will be high without such improvements.

Before the war clouds gathered it had been decided to build approximately 300 miles of state road in Nelson's district. The latter now states he believes much of this work will be postponed, as the saving to the state from reward money would be well worth the half million mark. It is expected that road building will be neglected until the war has been brought to a successful termination.

of the 1960s. The "new" music was not only different in sound, but also in its social and political implications. It was a music that was born out of a sense of rebellion and a desire to break away from the established norms of the time. The music was often characterized by its raw, unpolished sound, and its lyrics often dealt with themes of love, sex, and social commentary. The music was a reflection of the times, and it played a significant role in shaping the cultural landscape of the 1960s.

GAME FISHING

LITTLE PAN-FISH FISH

My Dear Buck:

There's a great big bunch of little fish that don't seem to get the proper credit for all the fun and pleasure they have given fishermen. I've been catching them for years and years, and I've found them to be the most enjoyable of all the little fish that live in the water.

As a rule, they are not very large, but they are very fun to catch. They are also very easy to keep, and they are very cheap. I've found them to be the most enjoyable of all the little fish that live in the water.

Light Fly Rod Best
Of course, they don't need a lot of money to catch. A few dollars will buy you a good fly rod and a few more will buy you a good fly reel. You can also buy a good fly line and a good fly lure.

Light Fly Rod Best
When you have the tackle that you need, you can go out and catch them. They are very easy to catch, and they are very fun to catch. They are also very easy to keep, and they are very cheap.

Light Fly Rod Best
The tackle that you need is not very expensive. A few dollars will buy you a good fly rod and a few more will buy you a good fly reel. You can also buy a good fly line and a good fly lure.

A Letter From Washington

The Food Administrator Writes Us:

"The use of baking powder made of corn and other cereals flour instead of wheat flour is recommended by the Conservation Division of the Food Administration. The wheat needed for export is thus conserved, and at the same time a healthful food for our own people is provided. The circulation of recipes for the use of these cereals is for the purpose of assisting in carrying out our plan."

British Cruisers in Fight Off German Raider

London, Nov. 10.—British light cruisers today fought a battle off Helgoland, and defeated a German raider. The British cruisers were victorious, and the German raider was captured. The battle was a significant victory for the British, and it showed that the German navy was not invincible. The British government is proud of the victory, and it is hoping that it will lead to a peace settlement. The British government is proud of the victory, and it is hoping that it will lead to a peace settlement.

Wheat Not To Be Used for Feed!

The United States Food Administration has issued the following order:

"All mills are cautioned not to grind wheat for animal feed. Not only is the conservation of wheat for human food a high patriotic duty at this time, but the use of wheat for feeding animals is not a matter of relative cost of wheat and other grains, but of the disposal of wheat that is surplus to our needs."

Mills have also been notified by the Food Administration not to sell any consumer more than the actual requirements for 30 days. This rule will apply to all orders and all consumers. The object of the ruling is to insure every consumer the possession of the available flour supply.

GORA BLOSSAT GUILTY

JURY TOOK SIX HOURS TO REPORT

FIFTEEN DAYS ON CASE

Trial was Started on Dec. 3, and Continued Until Dec. 18th

Case Cost the County Over Twenty-Eight Hundred Dollars

Monday morning, Dec. 19, the circuit court of Charlevoix county convened, with a large list of criminal cases. First on the list was the case of Gora Blossat, against whom a charge of larceny was returned.

Three days were taken up in securing a jury, but on Thursday morning the prosecuting attorney, H. L. Lewis, and attorney Lyle Simulman and J. M. Harris were busy in examining witnesses, who testified about forty.

Mrs. Gora E. Blossat, of whom we all know, was the owner of the Hotel Michigan at the time of the trial on Nov. 25 and March 10, she was accused of larceny of the property of the Hotel Michigan, which had been taken by her.

Soon after the March 10 trial, the hotel was closed, and the property was taken by her. She was accused of larceny of the property of the Hotel Michigan, which had been taken by her.

Pole Raising at School

A fine new liberty pole and standard also American flag were presented to the Charlevoix school Tuesday afternoon, by Ernest Dowdle, a former teacher, a patriotic and progressive citizen and a pole-raising and in short program inspired by the teacher.

In presenting the pole and flag, Mr. Dowdle charged the children to raise the flag never to let it touch the ground. Each child was given a little school flag button to help them in remembering their pledge.

The teacher, Mr. O'Brien, brought in the school the same day, Tuesday night, new library books for use in the library. The books were given to the children to follow the state motto, "I shall defend" and to apply this in their school and to their homes. At the request of the chairman, the children were given the school flag button to help them in remembering their pledge.

EMREY'S FOR SERVICE EMREY'S

TO OUR CUSTOMERS:—

The United States Food Administration has announced that the flour business will be permitted to continue to operate on a cash basis, and to dispose of its surplus stock of flour and other grain products very materially. The amount of wheat to be used in making a barrel of flour and the amount of flour to be put in a barrel will be fixed and no variation whatever is allowed. The price of mill feed is fixed and removal of surplus stock is permitted. The price of flour will be fixed under the ruling it will not be possible for us to produce our usual quality flour. The new flour will be of equal actual quality, it will be a good flour, clean, pure and wholesome, and our customers may be assured it is the highest quality flour now produced in this country. The government can tell the necessity of discontinuing our old brands, but flour is the greatest consideration just at present, and the only thing that will be done is to get the flour that will help our government during the present crisis. The price of grain and mill feed will be fixed, and the government will induce the millers to produce flour of the same quality. The probability will slightly increase the price of flour. This increase will not be great. We can not say that the new flour will be better than the old stock of flour are sold out the new flour will be packed in plain sacks, save for this branding, and it is made to be sold at the same price as the United States Food Administration.)

Exceptions to Flour

Purchase Rule Revoked

Washington, March 8.—All exceptions to the flour administration rule requiring the purchasing of an equal amount of substitutes with each purchase of wheat flour have been revoked because of the necessity of conserving wheat for the allies.

The country is thus put on a parity in regard to buying wheat flour. Exceptions to this rule had been allowed in certain localities where substitutes are little known and hard to obtain.

The Third Liberty Loan

The campaign of subscriptions to the Third Liberty Loan, calling for six billion dollars, will be launched April 15th, next. The county of Charlevoix County will be a little less than \$750,000, and we must raise it.

The work of organizing the county for the drive to raise money will be pushed energetically to completion. A number of people in each township and ward will be called to assist, and all will be asked to subscribe. "And there's no retreat from the war."

So, good people, get ready for a great response to this our country's call. Let the record demonstrate that the patriotism of Charlevoix County is not confined to words, but delights in deeds, and is vigorous enough to sustain every strain that can be placed upon it. So, now, for a strong unit, a steady pull, and a pull together, until we exhaust the very resources of the county.

Yours in win, R. W. Kasi, J. L. Crane, County War Committee.

Red Cross Notes

Seventeen premium jackets and seven hundred and thirty-five pairs of socks given to Charlevoix for the month. To complete that work we must have more socks. The women who go to the Red Cross room for their socks should also bring a pair of socks.

The donors this week are Mrs. Fraser and Mrs. Agnes Jarvis and the "Charmers" of the Charlevoix branch of the Congressional church.

Mrs. Jennie Crouter, who has been spending the week in Dayton, Pa., returned home Monday afternoon.

Relations extended to Mr. and Mrs. Daniel Campbell on the arrival of the new Monday night—Paul Daniel.

Mrs. C. A. Cronlow, local carpenter, left Tuesday for Buffalo, N. Y., to work for the Curtis Aeroplane Co.

The show window of F. & A. M. is deserving of especial mention. It contains the photographs of thirty-two boys in the uniform of Charlevoix county, and a large share from our own city. It is a wonder that every passer-by, in sun or shade, does not gaze at this array of boys, many faces. As for the pride and admiration one feels for these noble young men, we should recognize the interest in having a distinguished and successful career in the military service, which is the aim of every boy in the county.

Reliance of the spring weather is plentiful. Lake Michigan has disappeared. The water is warm, and the sun is shining. The birds are singing, and the flowers are blooming. The weather is just what we need.

THE Serve-Self GROCERY

Our selling plan is simple—there is no delivery, no clerks and no waiting for a chance to secure service. The customer takes a basket when they come in, if they do not bring one. Everything is to be put in packages and plainly marked. You then help yourself and stow the goods in the basket, and pay the cashier as you leave the store.

Owing to the fact that we have no clerks to hire, no delivering expense, or loss of accounts, etc., we can give our customers the benefit of this plan.

Special Prices on ALL ARTICLES Every Day
Remember we pay the highest prices for Butter, Eggs, Veal, Beef, Pork and Chickens

HISTORICAL MEETING

Held Last Friday Evening
Closed the path of the
Organization

The meeting of the Historical Society last Friday evening at the home of Mr. and Mrs. Hartlett, closed the 10th year of this organization with a most excellent program. Miss Lamson gave the paper of the evening, "Canada in the War," which was much enjoyed by all.

Then followed "An Hour With Brown," by Mr. and Mrs. Hartlett, which consisted of a talk on the life of John Brown, accompanied by Mrs. Tom Lamson.

Interpretation of "Old Pictures in the Room," by Mrs. Clinton Cooper and Mrs. R. L. Lewis. It was a most interesting and instructive talk on the many old pictures in the room, which were of the life of the nation.

One of the speakers of the evening, Mr. R. L. Lewis, who has been visiting in Charlevoix, called on some of his friends here, last week.

EMREY'S

It is true there is much clothing being manufactured today in which cotton or shoddy has been substituted for wool. But the regrettable feature is the fact that unscrupulous clothiers have this inferior clothing upon their customers for all to see.

From the time this store was founded, over a quarter of a century ago, it has never been necessary to disown the truth in any way to sell merchandise.

OUR WORD IS GOOD.

Through foresight in buying we have an unusually heavy stock of All Wool Suits, both in blue and gray Serges and Mixed Goods at prices ranging from \$15 to \$37.

NUMBER 1

FROM J. M. C. SMITH

Congressman, Third District of Michigan, Says That We Were Right

"Every true American wants our country to be successful in this war. We were right in declaring war. Germany deservedly came on us. If we do not win, we will have billions of dollars of our money to pay to Germany; and we also lose our free government which cost so many lives and such great treasure.

Let every citizen awake to the true situation and the importance of winning. Don't try to see how much you can save or how little you can lose. Try to see how much you can give and how much you can help the boys who are fighting in the trenches. It takes money to arm, equip and support an army. Liberty can do something. Everyone can give something for victory.

Many a soldier boy will profitably employ at \$100 a month, or \$150 a year and send the money to fight for his country at \$20 a month. Suppose they had said, 'We won't enlist at \$20 a month. We are making \$100 a month.' They would have been giving their money for it. Let us not be less patriotic. Let us subscribe to the new Liberty Loan with the same liberality that we did to the former loans and help the boys and the nation."

Disloyalty and its Punishment

Congress amended the Espionage Act last week so that now it is a crime, punishable by \$10,000 fine, or 30 years imprisonment, or both, for interference with the sale of Liberty Bonds, encouraging opposition to the making of loans to or by the United States, interfering by language derogatory to the Constitution of the United States, the flag, or the military and naval forces of the United States.

THIS ACT WILL BE ENFORCED.

AFTER TEN YEARS

J. P. Partridge, who has been in the west for nearly ten years, surprised his relatives and friends here, by returning for a visit last Sunday. During his absence from Charlevoix Mr. Partridge has spent the major part of the time in Idaho, where he located, proved up, and now owns a homestead claim. He also spent some time in the State of Washington, coming from that state direct to Charlevoix. Hearing to surprise his family, he did not notify them of his coming, and arrived just after they had left for Montague, Mich., in their car. He is, however, being warmly welcomed by many old friends.

Sleep, the Restorer.
"Hardly to bed early to rest" is a splendid maxim for the nervous patient to follow for sleep is undoubtedly the greatest health restorer in the world. The best place to choose of bed is a bed built before restful with relax tension nerves to such an extent that sleep comes very readily.

Few Chinese Newspapers.
In all China there are about 400 newspapers, and of those only about fifty have good circulation. The average is not more than 3,000 copies an issue. One newspaper in Shanghai claims a daily circulation of 20,000.

TO SECURE LICENSE

Fertilizer Manufacturers and Dealers Must Secure Licenses

Attention of fertilizer manufacturers and dealers has again been called to the necessity of taking out Federal licenses. All fertilizer manufacturers, including mixers, even though their output may be small, are required to take out licenses. Agents and dealers doing exclusively a retail business, whose gross sales do not amount to more than \$100,000 a year, are not required to take out licenses or to make application for them. However, any retail dealer or agent whose gross sales amount to more than \$100,000 and who does not apply for a license is liable under the provisions of the act of Congress for violating the governmental control of the industry.

OUR CITY GOES OVER

Makes the Grade on High and Will Keep Going Till War is Over

When Charlevoix County was called upon to fill the first Liberty Loan quota many of the wise men and financial men of the county were apprehensive as to the outcome, fearful that the amount asked could not be raised and fearful concerning the financial equilibrium of the county if the amount was fully taken.

When the call came for subscriptions to the Second Liberty Loan there was a strong feeling notwithstanding the patriotic sentiment of our people—that the amount asked for was beyond our ability to raise. In both instances the amount was readily subscribed, being taken by all classes of our population. Nearly twelve hundred persons placed their application for one or more of the bonds, and all was accomplished without, in any way, disturbing our financial equilibrium.

When the call came for subscriptions to the Third Liberty Loan our people were smoothly organized, the workers set out on the work assigned to them, the wheels set in motion throughout the county and instantaneously the subscriptions commenced flowing into headquarters. The people responded liberally to the call without being urged or coerced into making an application for a bond. Every individual pleased in the thought that they were subscribing to a worthy cause, aiding the Government and at the same time giving a black eye to autocracy and prussian militarism as well as driving a nail in the coffin of Wilhelm the II.

Charlevoix county, without special effort, makes the Third Liberty Loan grade and is still going. Applications for stock keep coming in and if every district in the county can find a people more loyal, enthusiastic or patriotic we will do our bit to them. At present our hat is off for the citizens of Charlevoix county.

To The American Mother

A boy, yours or your neighbor's, perhaps, lies shivering in the trenches "over there" wet, cold, weary, or worse yet, on the stretches of No Man's Land, wounded, alone, dying. You cannot bear for him one agony, you cannot give him life, health or happiness; but if all America does her duty, you can give to every American lad who goes "over the top" the glory of hope, the reasonable certainty of victory, the exultation of knowing that he does not die in vain—that America has risen as one to make the world fit for life, fit for honor, fit for freedom.

BOAT SERVICE - PULL

Action by Board of Commerce May Secure Needed Service

At a meeting held by members of the Board of Commerce Tuesday afternoon, to discuss the best method of securing boat service between this city and Chicago for the season of 1918, it was decided that a committee be appointed for drafting a petition directed to the Northern Michigan Transportation Company, asking for such services, such petition to be signed by the business men of Charlevoix, guaranteeing their heavy cooperation with the Company in substantially turning over to the Transportation Company their shipments to and from Chicago at an advanced rate over previous years, such advance rate to be made up by the force in the operating division of the Company's office. This rate, it is generally understood, will be but slightly in excess of the rate during the preceding three years, when it is stated, the rate was low, and did not cover operating expenses.

R. F. Shaw, Chas. E. See and A. F. Bridge were selected as the committee to draft the proper petition which, after being signed by the business men of Charlevoix, will be forwarded to the office of the Transportation Company.

It is understood that a tame week service can be had, commencing in May and continuing until the middle of October, providing the company has the assurance that sufficient freight business is guaranteed which must be in accordance with adequate to pay operating expenses at least, or better yet, place some profit in the hands of the Treasury of the Company. When the matter is satisfactorily arranged, the Transportation Company will provide a satisfactory freight and passenger steamship for this semi-weekly run, touching at Charlevoix, Petoskey, Harbor Springs and Mackinac Island.

Our business men are strongly in favor of rendering every possible assistance necessary to secure water transportation, which will be beneficial to this part of the state, and fully realize the condition by which the transportation companies are handicapped, hence, are inclined to meet the company on a basis less favorable to themselves than ordinary.

It is to be hoped that the business men at other points where the service is needed will get together at once and take action similar to that taken here Tuesday afternoon. By so doing they will increase materially the prospect of our having reasonably good boat service between these northern points and Chicago during the coming season.

Baby Natural Monopolist.
There is about the baby name of the subtle decadence of the old, practiced here who deftly turns the conversation to his own exploits and affairs. Baby simply takes of the mother from his personal self. The entire household attention turns at once to his affairs. He monopolizes the conversation with his breathless account of his progress or of his connection with the open sales pin—and that is all there is to it.

Protect the Wheat Crop

WHEREAS, It has been represented to the War Preparedness Board by the Secretary of Agriculture of the United States that wheat and other cereals are when grown in the vicinity of barberry bushes of the varieties hereinafter specified, and that the Black Stem Rust of wheat and other cereals and grasses develop on such barberry bushes in the spring and produce countless numbers of spores which are carried by the wind and laid on wheat or grain and grasses; and WHEREAS, the action of the Board has been asked for the eradication of such bushes;

THE MICHIGAN WAR PREPAREDNESS BOARD

ORDERS as follows:
1. All barberry (Berberis sp.) bushes except the species and variety known as Japanese barberry (Berberis thunbergii) are hereby declared to be, and the same are, a public nuisance and a menace to the public welfare, and their maintenance, propagation, sale or introduction in the State is forbidden. It shall be the duty of every person owning or having charge of any premises on which barberry bushes of the kind producing varieties are grown or at any time found growing, to forthwith destroy such bushes.
2. This order shall be in force from its date.
Dated, April 10, 1918.
ALBERT E. SLEPPER,
Gov. and Ex-officio Chairman
Mich. War Preparedness Board.
R. C. VANDERHOOF,
Secretary.

DALLAS BOUDEMAN

At Majestic Theatre Saturday Night and M. E. Church Sunday Last

Hon. Dallas Boudeman delivered an address Saturday evening at the Majestic Theatre and followed with another address at the Methodist Episcopal church Sunday afternoon. Mr. Boudeman's address was concise and comprehensive, giving a short review of the war, our present status, and a statement of what we must do in order to win and make America safe for ourselves and for future generations; also the necessity for us to assist in every possible way in increasing our production of war materials and to contribute to the complete overthrow of prussian effort for the domination of the world.

Baptist Announcement
During the absence of Rev. L. C. Vinyard, who has been granted a leave of absence by the church, the regular services will be held at the usual hours. Pulpit service will be secured whenever possible, at other times the services will be conducted by the young people of the church. Apr. 14 the pulpit was filled by Mrs. Irwin, of Petoskey. Mrs. Irwin is Superintendent of Sunday School work for the Grand Traverse Association, and those who failed to hear her address missed a treat. Come next Sunday and do your bit toward holding up the work during the pastor's absence. Watch for announcement of speaker on the bulletin board.

The executive committee of the B. Y. P. U. will meet in the prayer meeting room at 4 sharp Thursday evening.

MAY SELL PROPERTY

Alien Property Custodian May Sell Enemy-Owned Property

The Alien Property Custodian has been given power to sell, at private sale without advertisement, enemy-owned livestock, feed or food stuff, hides and other animal products, agricultural products, fertilizers, chemicals, drugs, essential oils, lumber, cotton, tobacco, furniture, books, glass and china ware, wearing apparel, jewelry, precious stones, pictures, ornaments, etc.—a trace, objects of art, raw or finished textile materials, trunks, boxes, partially or completely manufactured metals, fabrics, rubber or rubber products, and all kinds of merchandise, in lots having a market value of not more than \$10,000. FISHING OUTFIT SOLD

Captain G. C. Geiken Retires, Capt. Ava Smith and C. H. Well Take Business

Captain G. C. Geiken, last Friday, transferred the tug Frank P. Geiken and his equipment for fishing together with house and three lots extending from Blytheville avenue to Round Lake, to Captain Ava Smith, of this city, and C. H. Well, of Chicago, who will hereafter conduct the fishing industry formerly carried on by Captain Geiken, who will retire from the fishing business in which he has been engaged here for about thirty years.

Both Captain Smith and Mr. Well are well known locally, the former having resided and sailed out of Charlevoix port for many years. The latter from acquaintance made here while spending his summers in this city.

The entire equipment will be put in first class shape, at once, and the new firm will engage in the fishing industry with Charlevoix as headquarters for the firm.

ODD FELLOW COMPLETED

Will Soon Sail into the Port of Charlevoix—Now at Elk Rapids

Franklin M. Sears came up from Elk Rapids Tuesday for physical examination before the Medical War Board, returning the day following.

While here he reported that the work of rebuilding the steamer Odd Fellow, recently purchased by Sears Brothers, was practically finished and that the steamer would be brought to this port as soon as conditions on Lake Michigan would permit and immediately thereafter the Odd Fellow would be placed in commission between this city and East Jordan.

THERE ARE TWO KINDS

Of Patriotism, Every Dollar Urgently Needed to Help Win This Great War

Mr. Farmer, you have brought a lot of idle land into tillage this spring. You are going to raise all the grain and forage and livestock your farm can be made to produce. That's one kind of patriotism and a very necessary kind.

Every farmer who brings an acre of land into cultivation is a soldier on the living line for Liberty and Democracy.

But there is another kind of patriotism that is just as necessary. It is just as necessary that the stuff you produce should be put at the disposal of the fighting forces, as it is that you should raise it.

That means money. You have to have money to pay for the labor of farming your land and producing grain and stock. The government must have money to buy your produce for the fighting men in France. Money is absolutely necessary to buy food, munitions, clothing and medical stores.

You are doing your duty in raising the crops, that is very true. But in a war like this one, no man does his full duty who does not do all that he possibly can.

Bring out the grain you have stored away. Sell it at a fair price fixed by the government.

Bring out the money you have stored up in the long, or hidden away in your box behind the barn. Every dollar is urgently needed.

Invest every dollar in Liberty Bonds. The government will repay you in a few years. Measure you will receive interest at the rate of 4 percent, the investment later. Invest every dollar you have in Liberty Bonds.

Every dollar you bring out of concealment means ten dollars added to the fighting capacity of the United States in the World War.

Death of Mrs. Gornell

Mrs. Eleanor Gornell, wife of Mr. Henry Gornell, passed away Sunday night at her home on Antrim street.

About ten years ago, in crossing a railroad track with horse and buggy, she was struck by a Pere Marquette train, and though she seemed to recover from the injury received at that time, paralysis of the nerves finally resulted, and for three years she has patiently borne much suffering. She was born in Canada, April 14th, 1858, the day of her death being the 60th anniversary of her birth. Funeral services were held Tuesday afternoon at 2 o'clock, where she was laid to rest.

ORGANIZE TO FIGHT

Baboons Make War Very Much as Do Human Beings.

Ample Proof That Intelligent Beasts Recognize the Value of Co-operation—Also Capable of Self-Sacrifice in Aiding the Young.

If we are to credit the testimony on the subject offered by naturalists, it is not the only animal who carries on his warfare by means of organized units, and only in the forest of nature to assist him. There have been instances in Africa, India, that were conducted in a society a manner as the warriors had been really men, in fact of only somewhat like them.

One naturalist was situated out of a tree in a very few minutes by these creatures, who spring upon him and strike him down for a few moments in the silence, growling, snarling and screaming, and then began to tear at his throat.

FARMERS!

NOW IS THE TIME to test your loyalty, immense quantities of seeds must be planted this spring on every available spot of earth in the Great United States. You, farmers, remember you must grow enough crops to feed this Great United States, your soldiers in France, your Sailors and your Allies.

This is not loyalty in words, it is loyalty in action. You are either for America and our Allies or you are for the Hun.

We must be true Americans not weeklings, we must stand firm for the rights of all mankind as against the aggression of the Kaiser. Farmers make your crops strike a blow at your enemies. Plant every inch of soil you own, and don't plant the seeds, but take care of every stalk and plant, in doing this you perform the greatest loyalty to your country so near and dear to you.

This awful war remember has become the engrossing work of the world. Be loyal, do your part, yes, we must all do our part. We are doing our part by offering you seeds of all kinds—yes, offering you seeds at rock-bottom prices. Be loyal to your home merchants, buy your seeds at home, yes, buy everything at home, there is a reason.

Mr. Tom-Dick-and-Harry out of town merchants don't help you pay your taxes, they don't help you to bring your Liberty Loan quota "Over the Top," don't forget these facts.

We are your true friends, hand in hand we should work. Our profits are small on all our orders, our profits are small on our groceries, our profits are small on our feeds. Under Sam says you must put just a very reasonable margin of profit. We are with Uncle Sam and we are obeying every command. Remember, food is going to win this war—grow it and you are doing your bit.

Siberian Timber Wolf Imagines He's Chow Dog

POINT WASHINGTON, Jan. 1. N. Y.—"Siberian" is a published timber wolf belonging to Adeline Blum, but he doesn't know it, and neither does he know he is a pet dog and is fully as tame and playful as the show dogs which are the pet of the Blum household.

The wolf was born in the Bronx six years ago. His mother was a full-blooded Siberian wolf that had been given to the Blums by a friend of the family. The father was a small, white, fluffy dog that had been given to the Blums by a friend of the family.

Christian Blum, of the Bronx, now says the wolf is the only animal he has ever owned that has been as thoroughly domesticated as a dog. He has been associated with the wolf so long that he is fully as tame as a dog.

The baby wolf was three weeks old when he came to live at the Blums. He was a small, white, fluffy dog that had been given to the Blums by a friend of the family. He was a full-blooded Siberian wolf that had been given to the Blums by a friend of the family.

Christian Blum, of the Bronx, now says the wolf is the only animal he has ever owned that has been as thoroughly domesticated as a dog. He has been associated with the wolf so long that he is fully as tame as a dog.

FOR SERVICE

Do you use a Broom to sweep your Rugs with. If so you are wasting from 25 to 50 per cent in the value of your rugs. Now that the price of Rugs has made such rapid advances, it is quite essential that they be made to wear as long as possible.

BISSELL CARPET SWEEPERS

will prolong the life of a rug, rather than destroy it. The action of the brush gently picks up the nap instead of crushing it down as does sweeping with a broom. SEE DISPLAY IN OUR WINDOW.

ARE YOU WORTHY TO BE CALLED AMERICANS?

The mighty men in our history who assumed present ones, if it were to be purchased by future disaster, you will find in their blood, are calling to you, out of the past to protect the nation in a great crisis. It is up to you now to show yourselves, not by words, but by deeds, worthy to be their heirs.

The navy needs men—men at once, for the ships that have been built and are being built, and for the numerous hands of the naval service that must be maintained, so that the supremacy of the sea, of which the Hare have boasted, may become a mockery—and the U. S. A., with the allies, may continue the steady stream of men at this supreme moment, or something else will be the result of the German aggression and oppression.

The most desirable branches of the naval service are still open for enlistment. The opportunities open to you now may be closed at any time. This is your final chance to join your country as a volunteer. Are you going to take advantage of it, or are you going to wait—wait—wait—paying the way for the unavailing regret that will surely follow?

Why not look the facts in the face? If you study these facts honestly, you will find nothing to shrink from, and you will see from the viewpoint of your own self-interest, high pay, best of living conditions, good food and clothing, splendid training, high physical, moral and mental standards—and the honor of serving your country. Why wait?

Got Something You Want to Sell?

Most people have a piece of furniture, a farm implement, or something else which they are tired of and which they are not using.

These things are put in the attic, or stored away in the barn, or left lying about, getting old and less value each year.

WHY NOT SELL THEM?

Somebody wants these things which have become of no use to you. Why not try to find that somebody by putting a want advertisement in this newspaper?

EAT CORN

SAVE WHEAT

Let us tell you how much we can save you by using

Certain-teed Roofing

The kind that is guaranteed for at least fifteen years—made in Rubber Shingles as well as Rolls.

Roofs don't wear out—they dry out. The test is on the roof—so you can't be too careful in selecting the roof material you buy.

Certain-teed Roofing is made of the best water-proofing compounds—only the best grades of raw materials are used in manufacturing Certain-teed Roofing. These are selected as a result of a quarter of a century's experience and kept up to date by the General's Board of Expert Chemists.

A fifteen-year guarantee from the manufacturer

We are authorized by the manufacturer to give you a written guarantee, so you are absolutely sure of having a satisfactory roof—one that will last for years. This Certain-teed guarantee is better than any test you can make—it protects your roof and the money you put in it.

Certain-teed Roofing costs less money—is easy to lay—and is especially adapted for use on permanent buildings, such as houses, cottages, residences, barns, sheds and other farm buildings.

At least come in and see us. No trouble to show you samples and figure out to a penny just how much your roof will cost. We won't ask you to buy unless we can show you that we can save you money. We have a large stock and can supply your wants immediately.

Drop in and see us at once.

Political Announcements

ALONZO B. GREEN.

I desire to announce my candidacy for the position of Representative for the 1st District, Michigan, at the general election, August 27, 1934.

In common with the rest of the country, the state of Michigan is now in a state of economic depression. It is my duty to represent the people of this state, and to work for the best interests of the state and the nation.

ALONZO B. GREEN.

Garbage Utilization.

House can be made to utilize much waste material which would otherwise be wasted, according to a statement issued by the Commercial Association of Minneapolis, where between \$50,000 and \$100,000 is saved annually by using waste material to produce the garbage disposal at a cost, this city now receives \$1.20 per ton for its garbage in bag form.

HERE IS NEW IDEA

Woman's View of What Masculine Dress Should Be.

Possibility That War Will Bring About Such a Transformation as She Sees to Think Would Be Desirable.

The war has brought about changes in the world, and it is certainly hoped that some of these changes will be permanent. One of the changes that is being suggested is a new style of dress for women, one that is more practical and more in keeping with the needs of the war.

Black pants dress is always a unit of elegance, it is usually not thought of as a unit of elegance. It is a unit of elegance, it is a unit of elegance, it is a unit of elegance.

A Wide-Awake Church
By REV. HOWARD W. POPE
Meadow Bible Institute.

[illegible]

The average Christian does not read the Bible enough to keep himself in touch with the Word of God. He is like the man who has been told that he has been grounded gradually to the fire down, and is almost faint. When this becomes general in a church, it is necessary to reconvert the church. These special meetings usually consist of night meetings when the Word of God is read in the evening, and the people begin to have and burn and give light and warmth, which is the real condition of a church.

Notice that the words, "Awake, ye that sleep," are from 1 Cor. 15: 6. It is not a sermon, but a positive, jeremiatic command. One of these sometimes speak of the church as being asleep, but God regards it not as a nation, but God uses it as a sign, as needless to say, it is disastrous. "Ye are strong in the Lord," and in the power of his might.

was a very nice head with yellow curls, and said: "Oh, please, keeper, do have those show those tricks."

Min. (25-38). Terry says "I don't think I can do it. I don't think I can do it from on high" (Luke 24:48). "I do all things through Christ," a strong statement of faith, but it is not the real mission of the church—educational, though it does educate people continually; not to "teach" people, though it does teach; it may do this kind of work where necessary; not to bring enlightenment, and see that perceptive talents are kept on by provision of the church; not to preach the Gospel, to wield spiritual forces, to bring down power from heaven, to have a strong will and a strong will and passionate temper. "The real work of the church is to equip the people." And for that work we need people who are equipped. There is work enough, and power enough to do it with the help of God. The church is not responsible for her own staff, but who are easily accessible to who know how to use them.

"From the way they have acted to-day," said the hunter, "I am sure they are planning something concerning the cover. Perhaps a better way is to seal it tight, then turn back a quarter of a mile, and then come back and cook it as usual. Then divide it into a custard and send dressing, adding sugar and

ing. The day was for meat, and there was no place where the people could get their dinner. The teacher suggested that Jesus that he send the people to the villages round about that night lay by food.

But Jesus answered and said to them, "Go ye then to eat, and leave here ye?" And they had compassed the compass reported that all they could find a little bit who had five breads—two small fishes. The teacher said, "It is utterly inadequate, worthless the Master bade them to bring him what they had, and when people for supper. And when he had blessed distributing the bread, they found that they had five loaves, they found that they had five thousand men and twelve baskets full of fragments were left."

So we analyse this story, and we summarize it as follows: "But they said: 'But we cannot, for we have no bread, and we have no money to buy bread for all these people.'"

rid, stiff baggage, but it made the leg quite all well again.⁶

community: "Blessed be the Lord around you. Give us these things: 'That we cannot, Lord, We ask.' 'That you must do it, and we can do it. With God all things are possible, and you have God the Father upon us.'"

And when the church realizes the need for this kind of community, it can be the channel through which God's love flows to the rescued around when she realizes what power is obtained through prayer, the power that can change our hearts, she will begin to see who are spiritually hungry and who are spiritually hungry can be healed and the lame, and the comfort and guidance and the power of the Spirit. They know where the cool springs of God's people are and find out whether life can be had, and security are drawn there.

War Time Sweeteners

AMERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply. They are maple sugar, syrups, honey and molasses and other dicals requiring sweetening. When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipe should be decreased one-fourth. One-third of a cup of sugar is equivalent to one-half of a cup of honey, about one-half cup of syrup and about one-half cup of corn sugar. One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-half cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey about one and one-half tablespoons of syrup and one and one-half tablespoons of corn sugar.

Sugar may be saved by the use of molasses, dicals, dried fruits and fruit juices used on the breakfast cereals. Fruit marshmallows, butters and jellies should be used to take the place of the ordinary sweetening at a minimum. It may be added when sugar is more plentiful. Preserving demands this year a thin syrup instead of a heavy syrup.

If sugar is used one-half of the amount may be replaced by another sweetener. Drying is a means of preserving (without sugar) apples, cherries, strawberries and black caps. When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts.

Fresh fruit supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatin, junkies, custards, puddings and cakes.

A group of European abolitionists decided after experimenting, that buttermilk was the best substitute for sugar in the kitchen in large quantities and one slightly above the other.

Politics vs. Business.

The time for the thinking man is here. What are you going to do with your money? Are you going to leave business principles and vote without giving serious consideration to the fact of the matter?

Speaking of the highway, for the first time in my career I have seen a highway commissioner R. O. Hulse, who is a man very capable, one who will see that the business of highway building will be done in a businesslike manner. One who is familiar with the highway, knows how to keep the highway in good condition and who will see that every dollar expended will be accounted for by testing exactly what it was paid for and to whom it was paid.

You can not find a thing that will not be accounted for in the highway department. I have seen a highway commissioner R. O. Hulse, who is a man very capable, one who will see that the business of highway building will be done in a businesslike manner. One who is familiar with the highway, knows how to keep the highway in good condition and who will see that every dollar expended will be accounted for by testing exactly what it was paid for and to whom it was paid.

LETTER FROM FRANCE

How long going to drop you a line for some time, but have been so busy that I haven't had time to do so.

As you don't know, we arrived in France on U. S. after a most delightful and interesting trip. We moved from place to place with facility, and finally arrived in the middle of the war zone.

France is indeed beautiful, but the people, only the very old and young, are not a bit happy. They seem to have lost the way of life, and they are all so tired and weary.

If you could see the effects of war on the people of France, you would not wonder that they are all so tired and weary.

There is a great deal of suffering and death in France, and it is a very sad sight to see.

WHOLE STATE TO RAISE FUNDS ON WAR CHEST PLAN

Michigan Patriotic Fund created by Gov. Kerner to stage Union drive in November.

7 AGENCIES REPRESENTED

Action in accordance with request of President Wilson; organization is perfected.

The Michigan Patriotic Fund, recently created by Governor Kerner to consider all matters relating to the war chest plan, has today announced that it has selected seven agencies to represent it in the coming November election.

A number of counties are already raising funds through their own county war chest organizations and have their names in line for this year's election. The amount to be raised is approximately \$100,000.

Daddy's Evening Fairy Tale

By MARY GRANT BOWEN

AURORA BOREALIS.

"I am going to tell you a story to-night," said Daddy, "about the Aurora Borealis."

"What is it?" asked Nook and Nick. "It is a very beautiful light that is seen in the sky at night. It is called the Aurora Borealis."

"How is it made?" asked Nook and Nick. "It is made of fire and light. It is called the Aurora Borealis."

"Where is it?" asked Nook and Nick. "It is in the sky. It is called the Aurora Borealis."

"When is it?" asked Nook and Nick. "It is at night. It is called the Aurora Borealis."

"Why is it?" asked Nook and Nick. "It is because of the fire and light. It is called the Aurora Borealis."

"How is it?" asked Nook and Nick. "It is made of fire and light. It is called the Aurora Borealis."

"Spokes" and the Swift "Wheel"

What would you consumers think of a wheel without spokes?

What would you think of a man who would take any or all of the spokes out of a wheel to make it run better?

Swift & Company's business of getting fresh meat to you is a wheel, of which the packing plant is only the hub. Retail dealers are the rim—and Swift & Company Branch Houses are the spokes.

The hub wouldn't do the wheel much good and you wouldn't have much use for hub or rim if it weren't for the spokes that fit them all together to make a wheel of it.

Swift & Company Branch Houses are placed, after thorough investigation, in centers where they can be successfully operated and do the most good for the most people at the least possible cost.

Each "spoke" is in charge of a man who knows that he is there to keep you supplied at all times with meat, sweet and good for the most people at the least possible cost.

How much good would the hub and the rim of the Swift "wheel" do you if the spokes were done away with?

DELAID CASUALTY LISTS.

Owing to the delays in transmitting the list of war casualties, there remains a long list of killed, wounded and victims of disease that will not become known to relatives or the public until some later date, not withstanding the signing of the armistice and cessation of hostilities in Europe.

The armistice has been signed, and so far as Europe is concerned, the great war is over; but so far as America is concerned, the war is not over until our boys are safe on their native soil and the German and relatives have full knowledge as to the physical condition of the boys who have been engaged in the battle for world freedom.

There will be many bitter disappointments to American parents and friends when full information is received concerning the fate of the boys who were engaged in the battle for world freedom.

There is a possibility that of Harry Potter, that have not been reported during the last month of the war, we can expect news that will cause hearts to ache with joy and the hearts of those to whom the message is addressed.

By Reducing Consumption People of
the United States Averted a
Famine at Home in Spite
of Low Supply.

The fact that the people of the United States were able to reduce their sugar consumption from 100 pounds per capita in 1914 to 40 pounds per capita in 1917, is a record of national sacrifice and patriotism.

Now the nation is in a position to do this again. It is a position to which we owe a great debt. It is a position to which we owe a great debt.

POLITICS OF GEN. PERSHING

Democratic Club Now Wants Him Nominated for President of United States

General Pershing, now a character of international note, is being pushed forward as democratic nominee for the presidency.

They know him only as a popular and successful general in the great world war.

War has been General Pershing's study and his life has been early marked when he entered for service in the regular army.

There is every reason to believe that he will be a successful general in the great world war.

General Pershing may be a democrat, we do not know, however, he is a soldier, in Chicago, who is a general, lawyer and republican, while Senator Francis Warren, of Wyoming, a leader in republican politics in the west.

Frank B. Kent recently returned from Paris, having printed in the latter more than a story to the effect that there is some feeling on the part of both the French and English against the Americans.

PROCLAMATION

By the Governor of Michigan.

TO THE PEOPLE OF MICHIGAN:

While the spirit of Christmas awakens our hearts and renews the soul of our splendid commonwealth, a great cause pleads for a warm hand clasp, ask for manifestation of your approval and summons you to its comradeship.

Never in the world's history have the words "Peace on Earth Good Will Toward Men" been fraught with more meaning to mankind than at this the nineteenth hundredth anniversary of the birth of the Christ.

And never before have the nations of the earth been so nearly at one in all that makes for the world's future peace and mutual goodwill.

The Red Cross has perhaps the greatest single influence toward this end.

It is charity as broad as humanity. It stands in judgment on neither friend or enemy, where there is need its services go. It is indeed the "Greatest Mother in the World."

Could there be a more appropriate time to answer the call of the Red Cross than Christmas time? The Red Cross Roll Call should be held at the Michigan State Capitol.

Let us make Michigan's observation of Red Cross week as universal as Michigan's observation of Christmas.

Therefore, I, Albert E. Sleeper, Governor of Michigan, hereby set aside the period of December 16th to December 23rd, inclusive, as the Red Cross Roll Call, and ask the entire citizenship of the State to respond voluntarily, quickly and generously to the summons.

Given under my hand and seal this 14th day of December, nineteen hundred and eighteen.

ALBERT E. SLEEPER, Governor of Michigan.

Wirthmor & Welworth WAISTS

The Ladies Home Journal for March carries the first of a series of advertisements which will tell simply and truthfully the Wirthmor & Welworth story of how it is possible to get out such really excellent waists at prices so very moderate. The whole wardrobe and beautiful costumes under which waists are made, and what the Wirthmor and Welworth waists always stand for.

\$1.50 and \$2.50

America's only known price WAISTS and sold at the same low price the nation over.

Despite the low prices at which they are sold, the Wirthmor and Welworth are always quality waists, distinctive and dependable, rightly and serviceable. It is only because of the great scale on which they are produced and a unique cooperative plan which cuts making costs to a minimum and eliminates the selling expense that such very unusual values are possible. Every Waist is unconditionally guaranteed by the makers to fit perfectly and to give entire satisfaction.

New Models on Sale Today.

Wirthmor and Welworth Waists can be sold in just one good store in every city—and they are sold Here Only.

Services at Baptist Church

Preaching at 10:00. Sunday School at 11:30. B. Y. Y. at 6:00 p. m. Prayer Meeting Thursday night at 7:30.

The 10th Call and Get Together meeting was held the 13th. All present pronounced it a success. After a beautiful dinner, a business meeting was held. As soon as possible all just claims that are against the church will be adjusted, and it was decided that in the future everything shall be done on a strictly business basis.

In the evening after another report, the Pastor gave an address on the subject, "Introduction to the Study of the Bible." After this another hour was spent in a social time. The people visiting and the young people engaged in social games.

We are pleased to know that so many of the people of Charlevoix are becoming interested in our church, and trust that we are here to assist in the uplift of the town and community. Because of the hearty encouragement received, therefore, the church is much encouraged. Everybody who is not identified elsewhere is invited to come to all our services.

Words That Are Most Used.

It is defined by a psychologist that nine words comprise of 90 per cent of all work. The nine most useful words are: And, but, he, she, it, I, of, the, we, you, this. The 24 words that, with these nine, do our literary work are: About, all, as, at, but, by, can, could, did, do, for, from, had, has, he, if, in, is, it, like, may, me, more, must, not, of, on, one, or, so, that, there, then, this, though, time, us, with, without, you.

Improved Prepositions.

A new proponent for either water or air bath has been developed. It is a new one-piece and operates at the other, carrying the water or air full length and increasing the gripping effect of ordinary protractors.

Home From Abroad

The Charlevoix District School is expected to arrive in the port of New York sometime this week. A celebration in honor of their return will be held at the home of Mr. and Mrs. N. A. Shore, Friday evening, March 28th. Mrs. Shale is conducting the returning party.

Come and see the interesting movement to be exhibited by Mrs. Padlock.

Congregational Church.

Next Sunday morning the pastor will speak on the theme "Jesus Christ and the Bible." After this another hour will be spent in a social time. The people visiting and the young people engaged in social games.

Arrangements are being made by members of the local lodge, F. & A. M. to attend a special meeting of the order to be held at Petoskey, Thursday evening, April 3rd. Grand Lecturer Gilbert will be present and assist in the presentation of the work during the meeting.

Last week Mr. D. J. Bickler purchased of Harry Nichols, the John Mason residence on Bellevue avenue. This property faces Harbor avenue on the west and is one of the best in Charlevoix and lake. Mr. Bickler is making extensive improvements, and when completed, will have a fine home.

Mrs. Anna Tysler

Anna Tysler was born in Milwaukee, Wis., February 14, 1882. She was married to Mr. Tysler May 2, 1900 and moved to Charlevoix in 1907, where she lived until about five years ago.

On March 15th she suffered a stroke of paralysis and passed away the 17th at the home of her daughter, Mrs. Lou Carey, who with her husband, Mr. Tysler, were then living in Charlevoix.

The remains accompanied by the three sons, Peter, Herman and Oliver, of Gloucester, Mass., and one daughter, Mrs. Lou Carey, of Charlevoix, were taken to St. Joseph's, where they were buried.

The funeral services were held at the home of her daughter, Mrs. Lou Carey, of Charlevoix, on Saturday afternoon, March 17th, at 2 o'clock.

She lived a beautiful Christian life, ever patient, kind to all and leaves no doubt in the minds of those who knew her that she was a true Christian.

Her husband, Mr. Tysler, died on the 17th of the same month, and she was left a widow.

She was a member of the St. Joseph's church and was very active in its work.

She was a very kind and loving mother and a true Christian.
